

Well Woman's Clinic Agreement

Petawawa Centennial Family Health Centre
154 Civic Centre Rd
Petawawa, On
K8H 3H5

The PCFHC Well Woman's Clinic provides services to local area women who are without a family practice clinician. The patients being seen at this clinic are not being rostered or taken on as a patient of the Family Health Team.

The following services are available at the Well Woman's Clinic:

- Medical history questionnaire
- Well Woman exams , including Pap and breast examination
- Prescriptions for Hormone Replacement Therapy (HRT) and birth control options
- Notification of any abnormal tests and appropriate referral if required
- Initial prenatal assessments and referrals
- Insertion of intrauterine devices such as the Mirena and Nova T
- Ordering of mammograms or provision of number to register for the Ontario Breast Screening Program

By signing below, I confirm that I understand the types of services that I may receive from the Well Woman's Clinic (described above) and I acknowledge that I am **not** being rostered or taken on as a patient of the Petawawa Centennial Family Health Team.
